

## Wiring Explanation for controlling Gate Pulse Start Loop and Photocell protection giving full Remote Control over the system via GSM or R.F

## Single Output GSM Gate Controller System

### Model WT-9003

- On-Board Power supply
- 80 -250Volts
- Battery Back-up
- Quad band
- 30 Amp Relay NO-C-NC
- Fused Low Voltage
- Fused High Voltage
- R.F Module Option
- 433/868Mhzs
- 250 Users
- LP 65 Enclosure
- Programming Software
- 2 Years Warranty
- C.E F.C.C Approved

Control via GSM or R.F
